

Description

Join Worldwide Grocery Stores as a Business Analyst and transform raw data into strategic insights that drive business innovation! We're seeking a dynamic data professional who will be instrumental in bridging business intelligence with AI technologies. You'll play a critical role in translating complex data requirements into actionable strategies that propel our team's analytical capabilities forward.

Key job responsibilities

- Design and implement comprehensive data migration strategies, transitioning core datasets to advanced AI platforms.
- Develop sophisticated SQL queries and data models to extract meaningful business intelligence.
- Analyze complex data sets, identifying trends, patterns, and actionable recommendations.
- Collaborate with technical and business stakeholders to define data requirements and validate analytical findings.
- Create clear, compelling data visualizations and reports that communicate complex insights.

A day in the life

Your day will be filled with exciting analytical challenges, where you'll dive deep into data ecosystems, uncovering hidden patterns and opportunities. You'll collaborate closely with cross-functional teams, translating technical complexities into clear, compelling narratives that inform strategic decision-making.

About the team

We are a Supply Chain team committed to leveraging advanced analytical techniques to solve complex business challenges. Our collaborative environment encourages innovative thinking and continuous learning. We value professionals who can blend technical

expertise with strategic vision, helping us push the boundaries of data-driven insights.

Basic Qualifications

- Experience defining requirements and using data and metrics to draw business insights
- Experience creating complex SQL queries joining multiple datasets, ETL DW concepts
- 2+ years of Excel or Tableau (data manipulation, macros, charts and pivot tables) experience
- Bachelor's degree or equivalent

Preferred Qualifications

- Experience working with Tableau
- Master's degree in Math, Statistics, Computer Science, or related science field, or Master's degree or equivalent

Amazon is an equal opportunity employer and does not discriminate on the basis of protected veteran status, disability, or other legally protected status.

Los Angeles County applicants: Job duties for this position include: work safely and cooperatively with other employees, supervisors, and staff; adhere to standards of excellence despite stressful conditions; communicate effectively and respectfully with employees, supervisors, and staff to ensure exceptional customer service; and follow all federal, state, and local laws and Company policies. Criminal history may have a direct, adverse, and negative relationship with some of the material job duties of this position. These include the duties and responsibilities listed above, as well as the abilities to adhere to company policies, exercise sound judgment, effectively manage stress and work safely and respectfully with others, exhibit trustworthiness and professionalism, and safeguard business operations and the Company's reputation.
