

Description

Advertising enables monetization on all of Amazon's commerce and content sites worldwide, and is a strategic bet. Our guiding principle is to deliver the right ad to the right customer at the right time. This enhances both the customer experience and, in the long run, our advertisers' return on investment. We create only high quality advertising products that are valuable to advertisers and customers alike, and increase customer discovery on the Amazon site.

If you're obsessed with being a part of digital advertising that informs instead of interrupts; that helps customers deliver great products and brands, not just delivers impressions; and that empowers customers to be decisive, rather than distracts them – then we want you to come join us and make advertising even better. We are a motivated, collaborative and fun-loving team building a high growth business.

We are entrepreneurial and have a bias for action and a broad mandate to experiment and innovate. This role offers an opportunity to make a significant impact on the future vision for Amazon.

This position is based at the Amazon India in Bangalore. We are looking for a hands-on, detail-oriented, highly-motivated and cross-functionally oriented Business Analyst with deep analytical skills to help scale and own operations which improve seller experience.

Key job responsibilities

- a. Drive programs to improve advertiser experience through programmatic and influencing cross-team stakeholders
- b. Work on opportunity identification for improving Ad sales and build operational efficiencies for ad sales account managers as well as sales force.
- c. Support business teams in setting up processes and dashboards for tracking initiatives, business health; Publish periodic reports on program health

Basic Qualifications

- Experience defining requirements and using data and metrics to draw business insights
- Experience with SQL or ETL
- 4+ years of tax, finance or a related analytical field experience

Preferred Qualifications

- Experience using very large datasets

Our inclusive culture empowers Amazonians to deliver the best results for our customers.
