

Position Summary

Our Global Investment and Innovation Incentives ("Gi3") practice provides our clients a broad range of government credits and incentives ("C&I") services across more than 150 countries and regions worldwide. With over 1,000 practitioners, the Gi3 tax team is a national team of specialists dedicated to providing comprehensive tax C&I services.

If you are a technology visionary with a passion for transforming global tax business with digital technology, consider working with the Gi3 technology team. This is an exciting opportunity to support global execution of Deloitte's tax strategy as we shift from "doing digital" to "being digital" by reimagining how we engage with our clients, deliver our services, operate our business, and create value.

Work you'll do

We are seeking a Data Scientist with strong Generative AI (GenAI) and Natural Language Processing (NLP) skill to build and optimize LLM-powered prototypes and production-ready components. You will design prompts and Retrieval-Augmented Generation (RAG) workflows, package models as APIs, and support cloud deployment while ensuring outputs are evaluated, monitored, and aligned to responsible AI expectations. This role requires hand-on Python development, solid statistical modeling fundamentals, and the ability to communicate clearly across technical and non-technical stakeholders.

- Application Development: Build and optimize GenAI/NLP models and prototypes using modern framework e.g., OpenAI, Hugging Face).
- Prompt Engineering: Design, test and refine prompts to improve quality and reduce risk (e.g., hallucinations, bias, unsafe outputs).
- RAG Workflows: Implement foundational Retrieval-Augmented Generation pipelines to enable context-aware applications.
- APIs and Cloud Development: Package models as APIs and support deployments on AWS (Amazon Web Services, Azure, or GCP (Google Cloud Platforms).
- Validation and Monitoring: Develop evaluation approaches and monitor model outputs for reliability, performance drift, and compliance needs.
- Documentation and Communication: Produce clear and technical documentation and explain designs, tradeoffs, and results to cross-functional partners.

Qualifications

Required:

- Ability to perform job responsibilities within a hybrid work model that requires US Tax Professionals to co-locate in person 2-3 days per week
- Limited immigration sponsorship may be available
- Ability to travel 25% on average, based on the work you do and the clients and industries/sectors you serve.
- Bachelor's Degree in Information Systems, Computer Science or related field required.
- 3+ years of experience in data science / machine learning
- 1+ year hands-on building LLM/NLP solutions
- Strong Python proficiency and hands-on experience with GenAI frameworks such as LangChain, OpenAI/GPT APIs and Hugging Face

- Familiarity with software engineering best practices such as Git, CI/CD, automated testing.
- Experience with R, Python, SQL and basic cloud ML deployment on Azure, AWS or GCP.
- One of the following active accreditations obtained, in process, or willing and able to obtain:
 - Licensed CPA in state of practice/primary office if eligible to sit for the CPA exam
 - If not CPA eligible, one of the following:
 - Licensed Attorney
 - Enrolled Agent
 - Certifications:
 - Professional Engineer
 - Project Management Professional (PMP)
 - Chartered Financial Advisor (CFA)
 - Technology Certifications:
 - CBAP - Certified Business Analysis Professional
 - Certified SAFe Lean Portfolio Manager
 - Certified SAFe Architect
 - Certified SAFe Agile Software Engineer
 - Certified SAFe Product Owner / Product Manager
 - Certified SAFe Agilist
 - Certified SAFe Advanced Scrum Master Professional Scrum Developer™ (PSD)
 - Certified SAFe® Scrum Master
 - Certified SAFe® DevOps Practitioner
 - Certified SAFe® Practitioner
 - Microsoft Certified Solutions Developer (MCSD)
 - Microsoft Certified Solutions Expert (MCSE)
 - Professional Scrum Product Owner (PSCPO) - SCRUM.org and Project Management Professional (PMP)
 - Six Sigma (Green or Black Belt)
 - ITIL Certification:
 - Other: Vendor certification for management of implementations (Oracle, SAP, Thomson Reuters, etc.) or relevant industry certification such as Microsoft Certified Solutions Developer (MCSD), AWS (Amazon Web Services) or GCP (Google Cloud Platform)

Preferred:

- Experience fine-tuning LLMs and/or building conversational AI agents.
- Awareness of **Responsible AI**, privacy, security, and AI ethics considerations
- Exposure to data engineering and/or MLOps (Machine Learning Operations) practices.
- Excellent written and communication skills.
- Strong problem solving skills

The wage range for this role takes into account the wide range of factors that are considered in making compensation decisions including but not limited to skill sets; experience and training; licensure and certifications; and other business and organizational needs. The disclosed range estimate has not been adjusted for the applicable geographic differential associated with the location at which the position may be filled. At Deloitte, it is not typical for an individual to be hired at or near the top of the range for their role and compensation decisions are dependent on the facts and circumstances of each case. A reasonable estimate of the current range is \$82,880 to \$175,500

You may also be eligible to participate in a discretionary annual incentive program, subject to the rules governing the program, whereby an award, if any, depends on various factors, including, without limitation, individual and organizational performance.

How you'll grow
