Position Summary

Job Title: Consultant – Databricks Data Engineer

Job Summary

As a **Databricks Data Engineer**, you will design, build, and optimize enterprise-scale data engineering solutions using **Databricks** on AWS, Azure, or Google Cloud Platform (GCP). You'll help clients modernize data platforms using **Lakehouse** patterns, deliver reliable and performant pipelines, and translate technical design into measurable business outcomes. You'll contribute to engineering standards, data governance, and delivery excellence while collaborating closely with stakeholders across business and technology teams.

Recruiting for this role ends on 3/13/2026.

Work You'll Do (Key Responsibilities)

- **Data platform delivery:** Design, develop, test, and maintain scalable data pipelines and data products on Databricks to support enterprise analytics and reporting needs.
- **Lakehouse Engineering:** Implement Databricks Lakehouse solutions using Apache Spark and Delta Lake, delivering batch/streaming pipelines with Delta Live Tables, Autoloader, Structured Streaming, Workflows, and orchestration (e.g., Apache Airflow).
- **Data Modeling:** Build curated, governed data products by applying metadata-driven ingestion, PySpark incremental loads, and data quality frameworks, plus 3NF/dimensional modeling and Unity Catalog-based security/compliance controls.
- **Governance & security:** Support implementation of governance, security, and compliance controls in cloud data ecosystems, including Unity Catalog and fine-grained access controls.
- **Performance optimization:** Monitor and tune jobs, code, clusters, and pipeline designs to improve reliability, throughput, and cost efficiency.
- **DevOps & automation:** Implement and maintain CI/CD practices for data engineering deployments using tools such as Azure DevOps, AWS CodePipeline, Jenkins, TFS, or PowerShell.

- **Communication:** Clearly explain technical tradeoffs, implementation choices, and business value to technical teams and non-technical stakeholders; contribute to project plans, status updates, and client-facing deliverables.
- **Best practices contribution:** Contribute to documentation and reusable patterns for data architecture, integration, modeling, and engineering standards.

Required Qualifications

- Bachelor's degree in **Computer Science, Engineering, or related field** (Master's preferred).
- 2+ years of hands-on experience in data engineering with a strong focus on Databricks, deployed on any major cloud (AWS, Azure, GCP).
- **Minimum of 2 years Technical Proficiency:**
 - Databricks and cloud-native storage/compute and distributed processing platforms
 - **Lakehouse architecture, Apache Spark, Delta Lake**
 - Data warehousing and implementation experience with **3NF, dimensional modeling**, and enterprise data lakes
 - Databricks components: **Delta Live Tables, Autoloader, Structured Streaming, Databricks Workflows**, and orchestration.
 - Incremental data loads; building **metadata-driven ingestion** and **data quality** frameworks using **PySpark**
 - **Unity Catalog** and fine-grained security/access control
- Proven track record deploying solutions through **automated CI/CD pipelines**.
- Experience with performance optimization of pipelines, code, and compute resources.
- Ability to travel up to 50% on average, based on the work you do and the clients and industries/sectors you serve
- Limited immigration sponsorship may be available

Preferred Qualifications

- Strong knowledge of one or more cloud ecosystems: **AWS, Azure, GCP** cloud ecosystems and associated big data stacks is strongly preferred.
- Experience supporting or enabling **AI/ML** use cases.
- Databricks certifications

The wage range for this role takes into account the wide range of factors that are considered in making compensation decisions including but not limited to skill sets; experience and training; licensure and certifications; and other business and organizational needs. The disclosed range estimate has not been adjusted for the applicable geographic differential associated with the location at which the position may be filled. At Deloitte, it is not typical for an individual to be hired at or near the top of the range for their role and compensation decisions are dependent on the facts and circumstances of each case. A reasonable estimate of the current range is \$84,400- \$155,400.

You may also be eligible to participate in a discretionary annual incentive program, subject to the rules governing the program, whereby an award, if any, depends on various factors, including, without limitation, individual and organizational performance.

Information for applicants with a need for accommodation: <https://www2.deloitte.com/us/en/pages/careers/articles/join-deloitte-assistance-for-disabled-applicants.html>

Deloitte is committed to providing reasonable accommodations for people with disabilities. If you require a reasonable accommodation to participate in the recruiting process, please direct your inquiries to the Global Call Center (GCC) at USTalentCICInbox@deloitte.com.

Recruiting tips

From developing a stand out resume to putting your best foot forward in the interview, we want you to feel prepared and confident as you explore opportunities at Deloitte. [Check out recruiting tips from Deloitte recruiters.](#)

Benefits

At Deloitte, we know that great people make a great organization. We value our people and offer employees a broad range of benefits. [Learn more about what working at Deloitte can mean for you.](#)

Our people and culture

Our inclusive culture empowers our people to be who they are, contribute their unique perspectives, and make a difference individually and collectively. It enables us to leverage different ways of thinking, ideas, and perspectives, and bring more creativity and innovation to help solve our clients' most complex challenges. This makes Deloitte one of the most rewarding places to work.

Our purpose

Deloitte's purpose is to make an impact that matters for our people, clients, and communities. At Deloitte, purpose is synonymous with how we work every day. It defines who we are. Our purpose comes through in our work with clients that enables impact and value in their organizations, as well as through our own investments, commitments, and actions across areas that help drive positive outcomes for our communities.
